<sup>4</sup> Resolution 66/288, annex.

*Deeply concerned* by the slow and insufficient progress in providing access to basic sanitation services, as shown in the 2012 update report of the United Nations Children's Fund and the World Health Organization, in which it was noted that 2.5 billion people continue to lack basic sanitation, and conscious of the impact of the lack of sanitation on people's health, poverty reduction, economic and social development and the environment, in particular water resources,

*Appreciating* the ongoing work of the organizations of the United Nations system and the work of other intergovernmental organizations on sanitation,

*Noting* that sanitation-related activities, events and initiatives are observed each year in many countries,

*Noting also* the efforts of countries that are participating in all relevant voluntary initiatives related to water and sanitation, including the Sanitation and Water for All partnership, to share their experience with interested Member States,

*Recognizing* that events organized on 19 November in many Member States in the context of World Toilet Day have contributed to a better awareness and concerted actions on different aspects of the critical issue of sanitation for all, and acknowledging in this regard the critical role of civil society organizations,

1. *Decides* to designate 19 November as World Toilet Day in the context of Sanitation for All;

2. *Urges* all Member States, the organizations of the United Nations system and all other relevant stakeholders to encourage behavioural change, together with policies for increasing access to sanitation among the poor, complemented by a call to end open defecation as a practice that is extremely harmful to public health;

3. *Encourages* all Member States, as well as the organizations of the United Nations system and international organizations and other stakeholders, to approach the sanitation issue in a much broader context and to encompass all its aspects, including hygiene promotion, the provision of basic sanitation services, sewerage and wastewater treatment and reuse in the context of integrated water management;

4. *Invites* all Member States, organizations of the United Nations system and other international and regional organizations, as well as civil society, including non-governmental organizations and individuals, to observe World Toilet Day in the context of Sanitation for All in an appropriate manner, including through education and activities to raise public awareness on the importance of access to sanitation for all;

5. *Urges* all Member States, as well as the organizations of the United Nations system, international organizations and other relevant stakeholders, to accelerate progress in order to achieve Millennium Development Goal 7 and other Millennium Development Goals related to sanitation, including by redoubling efforts to close the sanitation gap through scaled-up ground-level action, noting in this regard the global effort to realize "Sustainable sanitation: the five-year drive to 2015";

6. *Stresses* that the costs of all activities that may arise from the implementation of the present resolution should be met from voluntary contributions, subject to the availability and provision of voluntary contributions for this specific purpose;

7. *Requests* UN-Water, in consultation with relevant entities of the United Nations system, mindful of the provisions of the annex to Economic and Social

Council resolution 1980/67, to facilitate the implementation of World Toilet Day in the context of Sanitation for All, in collaboration with Governments and relevant stakeholders;

8. *Requests* the Secretary-General to bring the present resolution to the attention of all Member States and organizations of the United Nations system.
